A. Whittier School- Clean-up Day

Teacher, Lyndsey Erk and student, Katie Velasco were present on behalf of the Whittier Community School. Lyndsey Erk thanked the city for partnering with the school for the betterment of the community. She announced that the school plans to create 20 benches for the city, 10 more than last year. She invited everyone to the end of the school year party on May 12th. She also invited everyone to the graduation ceremony and potluck on May 20th.

Katie Velasco stated that the school will host a Whittier Clean-up Day on May 2nd at 1:00 pm. She invited everyone to attend and help the students.

Mayor Dan Blair thanked the school on behalf of the council for the benches they provided last year and for the benches they'll provide this year.

B. PWSRCAC- Lisa Matlock

Lisa Matlock explained in detail the new Unified Command

Lisa Matlock stated that she works as the outreach coordinator for the Prince William Sound Regional Citizens Advisory Council. She explained that they promote safe transportation of oil from the Valdez rain terminal with the tankers in and out of Prince William Sound.

Lisa explained that in the case of an oil spill, communities have some ways of getting their voice heard at the Unified Command. The Unified Command is comprised of a federal and a state coordinator and the responsible party for the spill.

Since the Exxon Valdez oil spill, the State of Alaska and federal agencies have had a Regional Stakeholder Committee; the committee is comprised of city governments, tribes, and other stakeholders that would be affected by the oil spill. The Stakeholder Committee is laid out in a plan called the Unified Plan which is used for an oil spill response.

The Alaska Regional Response Team decided to change the Regional Stakeholder Committee. They would like to break it into pieces: tribal & local government group and the affected stakeholders group. Tribes want to have a special relationship with federal entities that are involved in oil spill response. Tribes are given more of a voice when it comes to an oil spill response.

Lisa stated that the two groups were broken up and a new plan was written. The Regional Stakeholder Committee no longer receives clear information on how to respond to an oil spill; the new plan also limits access to the Unified Command.

Lisa informed the council that there is a limited thirty day public comment window that closes on April 29th. She is working to get the information out to communities so that if they can provide public comment

if they choose. Whittier's board member is Mike Bender and our volunteer is Dave Goldstein. Lisa provided the council with a draft resolution for the extension.

There was discussion among the members regarding the sample letter provided by Lisa Matlock and whether or not they should support the resolution.

Mike Bender suggested that the Council take action one way or another. In his opinion, he felt that they should pass the resolution requesting an extension to provide time to review the plan.

David Goldstein added that it's not prohibited to pass the resolution as written or with revised changes and following it up with another resolution opposing it.

8. MAYOR'S REPORT

A. Mayor's Report by Mayor Daniel Blair

Mayor Dan Blair announced that he met with the Chugach National Forest district ranger to discuss the lands they are interested in at the head of the bay. The ranger told Dan that the resolution council passed which opposed the proposed changes of the Forest Study Plan was very helpful and timely.

Mayor Dan Blair also stated that he met with Senator Dan Sullivan's Chief of Staff.

B. Vice Mayor's Report by Vice Mayor David Pinquoch

None

9. MANAGER'S REPORT

A. City Manager's Report- Mark Lynch

See written manager's report in original council packet.

Mark Lynch introduced Moe Zamaron, who is the manager for the new public safety building. Moe will also work with Andy Dennis to organize the camp ground and oversee some repairs on the ocean dock.

Mark gave an update on the ocean dock repairs. An engineer has looked at the dock and has given a report. The contractor is currently working on pricing, but Mark does not have those numbers yet. He stated that work on the dock should begin as soon as possible because of the significant damage.

A special meeting will need to be held if council wants to approve the dollar amount before beginning repairs. The contractor for the public safety building looked at the dock and estimated the repairs around \$100,000. Mark inquired if the council wanted to proceed with the repairs or wait for exact numbers. Mayor Blair encouraged the council members to move forward with the emergency repairs.

Peter Denmark asked if our insurance is applicable. Mark replied that he's not sure. A claim was filed and he's waiting for a response. Mark added that we have a \$100,000 deductible.

Mark noted that there is also significant damage to the pavilion. Steel beams have been bent and welds have broken. He hasn't begun discussions for those repairs as he has been focused on the dock.

Mark also reported that Phillips Cruises & Tours have stopped payments to the City until the dock is repaired.

There was some discussion about obtaining accurate estimates for the repairs or moving forward with the emergency repair with an estimated cost. Mayor Blair stated that this topic should be included on the agenda for a special meeting for further discussion.

Mark stated that it'll probably be another week before we the final number of votes for the Girdwood Policing.

Mark Lynch stated that there has been some delay in the transfer of the Delong Dock. There was brief discussion about this topic.

Mark Lynch introduced Moe Zamaron as the project manager for the new building and welcomed him to give an update of the project to the council. Moe stated that they had started on the storm drain and utility corridor. There were minor changes to the base work. The steel will arrive in July. The project is progressing as scheduled.

2. #15-2016 – A resolution of the Whittier City Council requesting that the Alaska Department of Environmental Conservation grant an extension to the communities of Alaska who will be affected by changes to Annex B, proposed process for community outreach in the Alaska federal/state preparedness plan for response to oil and hazardous substance discharge/release (Unified Plan) for the Regional Stakeholder Committee.

Mike Bender recommend that the city council approve this resolution and added that if there isn't another meeting held to develop another resolution requesting additional time, then at least we're on the record as a city stating that we're against the methods of change.

City Attorney, Holly Wells, stated that there is a third option, which is to amend a couple of lines that would bring the current resolution to a resolution opposing the changes to Annex B in part on the lack of an insufficient community comment period. If a resolution is passed during the special meeting based on opposing the changes of Annex B, it won't inconsistent with the resolution passed tonight.

MOTION: Peter Denmark made a motion to adopt resolution #15-2016 with an amendment to replace the word confusing with obfuscate in the second paragraph of the resolution.

SECONDED: Ata Ma'ae seconded the motion.

VOTE: Motion passed unanimously

16. COUNCIL DISCUSSION

Dave Pinquoch reminded council members that there are places in the budget where it states year to date actual but it's incorrect; it's what they've billed for the year, not a reflection for what's been collected for the year. He requested that at a minimum, when they're given budget information, that it states actual, not billed.

Dave Pinquoch asked Harbormaster, Andy Dennis how much revenue have we received under year to date actual for preferential moorage. Andy replied that they have received \$225,000. Dave Pinquoch stated that it is reported that we've received \$4485,000.

Andy Dennis and Lynette Dennis explained the accrual accounting procedures. There was further discussion about this topic.

Council set the date for April 26, 2016 for a Special Meeting at 6:00 pm followed by a Comprehensive Plan work shop.

They're getting closer to the active power lines and phone lines; that needs to be addressed. Dave Pinquoch gave a brief update about the price quote and suggestions he received from a local worker.

There was discussion about the welding work, the approach, the repair options and the cost.

Mark Lynch added that he received official notice from the insurance company today and all claims for the ocean dock and the pavilion were denied.

From: Mark Lynch, City Manager

Subject: Manager's report

Date: May 13, 2016 (for 5/17/16 Council meeting)

ARRC: The City has been in communication with our lobbyists, legislators, and the Governor's office concerning this matter. We continue to work on it.

Personnel: I have been working on job descriptions for positions needing to be filled.

Harbor: The Harbormaster office is currently under construction. The new roof and siding installation are progressing.

IRT (Innovative Readiness Training): We are on their list of projects for the summer of 2017.

Tideland Zoning: We are working on creating maps to identify the tidelands and the appropriate zoning.

Girdwood Policing: The vote to accept Whittier policing passed by 3 votes. However, Girdwood has been considering other options and has not decided yet to contract with Whittier. We will no longer to be able to meet a July 1 start date. More likely sometime in autumn at this point.

Public Safety Building: Most of the preparatory site work is complete. The contractor is waiting for the State to issue the final permits for construction.

AMLJIA Insurance: I received formal notice that no insurance payment will be provided for damage in the Harbor Triangle area.

Ocean Dock: I have been working with staff to obtain quotes for repairs to the Ocean Dock.

Fish Processors: Several Fish Processors have decided to stop or reduce operations in Whittier due to the increase in costs imposed by ARRC at the DeLong Dock.

GP: The lease extension for the egg-room is in your packet.

Historic Railroad Monument: Significant progress has been made on relocation of the historic Railroad Monument to the area near the South entrance to the pedestrian tunnel. Many thanks to volunteers from the Corps of Engineers.

Audit: The City is preparing for the arrival of the auditors later this month.

Subj: Monthly Harbor Report

Administration:

- Contractors have started on the new roof and siding for the office building.
- Staff is compiling data to support the city's financial audit.
- Office hours will shift to the summer schedule starting May 26 to ensure we're ready for the Memorial Day weekend. Hours will be 7 am – 7 pm Monday-Thursday, and 7 am- 9 pm Friday-Sunday.

Harbor:

- New metal signs are installed at the end of each float to help boaters identify them as they arrive.
- Smitty's Cove ramp is in need of repair. For future planning purposes, I got an estimate from one contractor. Cost to patch the holes in the ramp is approximately \$79,000. Estimated cost to resurface the entire ramp is \$290,000. Harbor staff will make temporary repairs this year.
- Bull rails were replaced on "A" float.
- One of the parking meters required a new receipt printer and dollar bill receiver. The receipt printer was replaced, and the dollar bill changer is expected to arrive in 3 weeks. Parts are covered by the warranty, but I did purchase spares to prevent excessive down time in the event of future failures.
- Staff has been working on the campground at the head of the bay. Spaces are numbered, grass
 has been mowed, and fire rings are in place. Rocks have been positioned to prevent parking and
 dumping on the beach. Additional signage has been ordered and is expected this week.

Meetings attended:

- Small claims court
- Army Corps of Engineers, discussed prospects for a breakwater and boat ramp at the head of the bay.

ADMINISTRATIVE REPORTS

A. Harbormaster Report

See original Harbormaster's report in clerk's packet.

Harbormaster, Andy Dennis reported that the harbor staff has been working on improvements on the A Float. Some decking on the city dock needs to be replaced. He doesn't plan on spending a lot of money on A, B or C floats since they will eventually be overhauled.

Peter Denmark asked Andy Dennis what happened to the pedestals. Andy Dennis replied that they have been replaced because they were knocked in the water last year. Peter Denmark asked if it's known who did it. Andy replied that he did not.

B. City Manager's Report

Mark Lynch was not present for this meeting.

CORRESPONDENCE

None

UNFINISHED BUSINESS

A. Setting Goals and Priorities for FY2016

Ed Hedges stated that nothing has been done on that.

B. Dump Site

Arnie Arneson asked Ed Hedges to explain what this was about. Ed replied that it has to do with the pump out station. Peter Denmark asked if we have a portable unit at the fuel float available for use when there's a demand for it. Andy replied that yes, there is one available on an as needed basis. He plans on testing it in the next few days.

Arnie Arneson asked if it would be possible to put the portable unit on a floater and move it with a skiff and move it to the area it's needed and it can be parked near the ramp. Andy Dennis stated that he'll look into this.

There was further discussion about the possible location and service of a pump out station.

C. Annual Transients

Ed Hedges asked the commission if they put any thought about adding more annual transients. Andy Dennis replied that he had a discussion with a council member which was not positive. Andy stated that slips are not given with the sale of a boat; it doesn't transfer. Ed Hedges stated that it used to be that way, but policy was changed without going through the Ports & Harbor commission. Andy stated that there's nothing in the city code that tells us who we can issue an annual transient contract to. The price is the same for an annual transient and the preferential slip. Ed added that a slip isn't guaranteed.

Ed stated that he feels there will be less revenue this summer because there will not be as many transients coming in because of the high cost.

There was a long discussion regarding the loss of revenue and slips at the harbor and harbor policy regarding transient rights.

Ed Hedges stated that he was bothered that the transient rights policy was changed without anyone's input other than whoever changed it.

Brad Von Wichman requested that Andy Dennis provide them with financial numbers from previous years.

D. Moorage Agreements

Arnie Arneson would the moorage agreement to be condensed. He went on to say that Title 12 explains everything that is necessary for the operation of a vessel in the harbor. He'd like Andy to use the Valdez Moorage Agreement as an example. Andy replied that there's no guarantee that they'll read Title 12 and it's not legally binding if there's not a signature.

Monty Irvin requested that Andy Dennis provide the commission with a cost benefit analysis for keeping the boat here on the waiting list. Andy encouraged people to come talk to him if anyone noticed anything that didn't match the waiting list.

E. Wash Down Area

Andy Dennis stated that anyone with a boat on a trailer will have a means to wash it off with water hose. The rinse station will be located near the travel lift. Andy Dennis stated that he talked to the harbormaster in Cordova because they have a wash down station; that facility cost \$2 million dollars.

Arnie Arneson asked if the travel lift is operational. Scott Korbe replied that it is.

Arnie Arneson asked Andy Dennis if he any objections to him moving his boat from the harbor to his lot in front of the Begich Towers building. Andy replied that he had not considered moving a boat that far, but he would pay for the time either way. Scott Korbe added that in 2009, the harbormaster at the time that the travel lift would not travel across the railroad tracks. Andy Dennis stated that he had not had any thought of going that far with it. Arnie explained that it would save him about \$2,000 to go to Valdez to do the hottom work that he needs to do.

Before moving on to New Business, Peter Denmark asked when would be a good time to discuss setting goals for 2016. Ed Hedges replied that they were supposed to hold a special meeting or work session, but it never happened. Peter stated that that's the function of these meetings. He suggested that they discuss it, unless they needed a month or two to discuss it.

Monty Irvin stated that signage is needed at A,B,C floats. Peter wanted to present a resolution for goals. He went on to say that so many of the things he heard tonight involved policy. He asked if anyone present had a policy manual. None of the members possessed one. Peter asked Jennifer Rogers if she would provide everyone a copy of the harbor policies. She said she would.

He stated that we need to review the policies as it has been indicated tonight. We have not looked at the policies since the new floats and fingers were put in. He wondered if the policies are compatible with the new infrastructure. The dump station and moorage rights are a function of this. All of the issues that were discussed tonight can all be handled in a policy review and development conversation.

He would like to put as the second goal as Review and Develop current policies. He would like to put as the first priority the harbor; it's only half finished. He stated that much of the effort of this commission and council should go towards completing the harbor. He announced that the issue is funding. He realizes that there are people considering it on the council.

Peter announced that when we decided to start the harbor, the city created a harbor development committee, which left Port & Harbor without a task. He stated that he'd like to fill the seventh Port & Harbor seat.

Ed Hedges stated that he doesn't know that we can appoint anyone. Peter stated that David Pinquoch led the harbor development. Ed again stated that he has to volunteer for it, we can't appoint someone. Peter replied that he'll volunteer for him.

MOTION: Peter Denmark made a motion to adjourn the meeting.

SECOND: Arnie Arneson

Ed Hedges Y Peter Denmark Y Brad Von Wichman Y Monty Irvin Y Seat E Arnie Arneson Y David Goldstein O

VOTE: The vote passed unanimously

DISCUSSION: Arnie Arneson stated that in 1995, Sue was appointed by Pete Heddell to the Port &

4

Harbor Commission. Monty stated that we should just vote on it and do it. Deputy Clerk, Jennifer Rogers, stated that according to the code, members have to be appointed by council. Appointed by the Mayor, confirmed by the council. Peter Denmark then suggested that we forward a recommendation to the council appointing Dave Pinquoch as the seventh commission seat.

Peter Denmark stated that his proposal for goals and priorities for Port & Harbor is finish the harbor and develop and review all operational policies. He went on to say that the commission should read the harbor and policies.

MOTION: Peter Denmark made a motion to forward a resolution to the city council, which includes the Port & Harbor goals and priorities for 2016, which includes the number one priority of completing the harbor, float and finger replacement with all possible haste as funding allows and to review and develop current harbor policies.

Dear Mayor and Councilors,

We would like to submit a proposal to the City of Whittier for consideration. We recently purchased the lease for property located in the Whittier Harbor District from Babs Reynolds.

Upon consideration of best use for both the City of Whittier and Custom Marine Services LLC we would like to propose a transfer to the City of Whittier for the Harbor Loop property in exchange for property located just adjacent to the leased lands where Alyeska Pipeline emergency response equipment is currently stored and the City Sewer Treatment Station on the lot named park. The terms of the lease would remain the same.

This would give the City of Whittier a prime piece of developed real estate next to the Harbor Masters office and would allow a place for Custom Marine Services LLC to provide an area that boat owners can temporarily work on their vessels and also provide a pre-staging area for vessels waiting for work at our business.

We realize this is a snow storage area for the City during the winter months and in consideration of this transfer we would work and cooperate with the City of Whittier to plan future snow storage measures.

We appreciate your consideration in this matter and look forward to working with you.

Respectfully Submitted,

Tourism Project Proposal

The Prince William Sound Museum has an ongoing interest in presenting Whittier's history to the visiting public. Our long range research project to discover information and images about the community's evolution has turned up a fascinating story about the region. The history of Whittier as a WWII military port is bracketed by the stories of

natives and Alaskan pioneers passing through the area to access the Portage Pass. At the other end of the spectrum

is the development of Whittier as a civilian community and its growing importance as a maritime and rail port.

Its reported that Whittier hosts as many as 700,000 people a year via cruise ship, Alaska State Ferry System or road & train access. Whittier has much to offer the visiting public in fishing, wildlife tours, hiking, kayaking and

photography. Many visitors tour the town of Whittier on foot.

Over the last couple of years we have participated in implementing the Whittier Army Port Historic Walking Tour.

The goal was to provide information and historical background to visitors about the history of the surviving military

architecture in Whittier that has survived from the Cold War.

We would like to expand on this concept by installing small "points of historical interest" signs along the waterfront walkway. At present we are suggesting 4-6 signs measuring 1' X 3', mounted waist high. These signs would be photo

etched metal and would include a brief text and historical photos.

Additionally we are proposing a Great Alaska '64 Earthquake Memorial to be placed in the Triangle business area.

The Memorial would commemorate the 1964 Earthquake and the effect it had on the port and industry of Whittier.

The envisioned elements of the memorial would be that of a permanent bronze plaque approximately 14"x24" in

size, embedded onto a large stone acquired from the hills around Whittier. Attached is a proposed text.

These signs and commemoration would help to illuminate Whittier's fascinating history for the casual visitor on foot

and make their visit to Whittier all the more interesting. History has a way of fading if it isn't maintained and this

modest project will go a long way towards helping to preserve the town's history. This strategically placed history will

enrich the experience for the region's visitors.

Thank you for your consideration & endorsement

Earthquake Memorial Plaque~ Draft Text

Great Alaska Earthquake 1964 MEMORIAL

At 5:30 in the afternoon of March 27th one of the largest earthquakes in recorded history devastated South Central Alaska. The quake registered 9.2 on the Richter Scale and the epicenter of the of the quake was but 33 miles from the port town of Whittier. While the massive quake did little damage to the concrete buildings built by the US military, Whittier's waterfront was completely destroyed by three tsunami walls of water. The quake caused the underwater terrain to give way beneath the surface of Passage Canal. The first 30 foot high wave was quickly followed by a monster wave said to be over 100 feet. It destroyed the Columbia Lumber Mill (which was located where the Inn at Whittier Hotel is today), the rail yards and a large petroleum tank farm which contained 9 million gallons of gasoline and fuel oil. The subsequent fire burned for 3 days. Also heavily damaged was the Two Brothers Lumber Mill at the head of the Passage Canal and the Whittier train station near Smitty's Cove.

Thirteen residents died; twelve at the Columbia Lumber Mill residents quarters. Six of the fatalities were the children of the Michelson & Barnes families who were in the midst of a birthday party for the Michelson father. The other loss was an infant who was torn from her mother's arms by the force of tsunami wave.

Thank you,

- C. A police officer is authorized to immediately impound a vehicle parked, stopped or standing in violation of any section of this title, when the police officer determines such a violation poses an imminent threat to the public health, safety or welfare.

 - E. A vehicle initially impounded by immobilization in place may be impounded later by seizure and removed to a place of safety if not released from in-place impoundment by 3:00 p.m. of the day the vehicle was initially impounded in place.

- A. Unless otherwise provided, the procedure set forth in WMC 10.24.230 through 10.24.260 shall apply whenever a motor vehicle is subject to impoundment (including booting) and removal pursuant to motor vehicle, traffic or parking codes or laws, including without limitation unlawful stopping, standing, or parking under any provisions of the City code or regulations adopted hereunder.

CITY OF WHITTIER, ALASKA RESOLUTION #18-2016

A RESOLUTION BY THE CITY COUNCIL OF THE CITY OF WHITTIER, DECLARING AN ECONOMIC HARDSHIP CAUSED BY THE ALASKA RAILROAD WITHIN THE CITY OF WHITTIER AND REQUESTING RELIEF FROM THE UNITED STATES ARMY CORPS. OF ENGINEERS AND THE STATE OF ALASKA GOVERNOR AND/OR LEGISLATURE.

WHEREAS, on July 27, 1999 Governor Bill Sheffield signed a memorandum of understanding ("MOU") on behalf of the Alaska Railroad ("ARRC") agreeing to work together with the City of Whittier ("City"), to "collaborate" and "act in good faith" to achieve the transfer of the DeLong Dock for the purposes of "Cruise Ship, Day Cruise, Commercial Fishing and Fish processing operations that require public use of the facilities."; and

WHEREAS, the above referenced MOU stated, "Both parties agree to work together to develop Long Term Lease agreements that address contractual and operational issues to <u>allow the City of Whittier use of ½ of the Dock Facility</u> and the ARRC use of parcel 1, Tract W tidelands." [emphasis added]; and

WHEREAS, under the terms of the MOU the City agreed to allow ARRC to be the "lead agency" handling the transfer, with the understanding that ARRC would do so in good faith and collaboration with the City of Whittier; and

WHEREAS, the MOU stated, "Upon issuance of the use permit by the Department of the Army, ARRC shall have use of parcel 1 and the City of Whittier shall have the use of Parcel 2. Each party shall be entitled to use their parcel in any lawful manner."; and

WHEREAS, the Department of the Army Corps of Engineers issued the first 6 month use permit to ARRC in 2000; and

WHEREAS, on October 5, 1999 the United States Congress passed public Law 106-65 authorizing the transfer of the DeLong Dock and stating, "The Secretary may convey, without consideration, to the Alaska Railroad Corporation, all right, title, and interest of the United States in and to a parcel of real property, including improvements thereon, located in Whittier, Alaska, and consisting of approximately 6.13 acres and the appurtenant facility known as the DeLong Dock, for the purpose of permitting the recipient to use the parcel *for economic development*." [emphasis added]; and

WHEREAS, on April 11, 2000 the Alaska Legislature passed HB320 authorizing and directing ARRC to be the lead agency working with the Federal government for transfer of the DeLong Dock; and

WHEREAS, HB320 stated, "the corporation [ARRC] and the City of Whittier shall agree to diligently <u>work together in good faith</u> to resolve disputes and <u>to collaborate</u> with each other in developing a management agreement for operation of the DeLong Dock facility <u>with the goal of operating the facility as a single entity for economic development purposes." [emphasis added]; and</u>

WHEREAS, it has been seventeen years since the 1999 MOU, and sixteen years since ARRC was tasked by the Alaska Legislature to cause the land transfer to take place, during which time ARRC has paid nothing to the Federal government for use of the Dock and has prolonged the transfer, serving the financial interest of ARRC but causing significant detriment to the City and the Prince William Sound region; and

WHEREAS, during this time, ARRC has held exclusive use of the DeLong Dock, has refused to allow the City access to the Dock, and has shared no revenues from the Dock with the City; and

WHEREAS, the City believes that it would have generated at least \$5,000,000 in local revenue, over the intervening sixteen year period, if it had been allowed to use and manage its half of the DeLong Dock; and

WHEREAS, on March 5, 2015 the City of Whittier respectfully submitted to ARRC a request to access to ½ of the DeLong Dock as had been agreed in the 1999 MOU; and

WHEREAS, on March 11, 2015 the City's request was denied by ARRC; and

WHEREAS, on May 26, 2015 the City filed a formal request with the U.S. Army Corps of Engineers Real Estate Branch, Alaska District, who is the Federal agency managing use of the Dock, requesting a use permit for ½ of the Dock as had been agreed in the 1999 MOU; and

WHEREAS, on July 20, 2015 the U.S. Army Corps of Engineers denied the City's request for a use permit, stating they were only authorized to deal with ARRC, but also indicating they had no objection to a shared use of the Dock if ARRC would consent; and

WHEREAS, ARRC has been setting rates for use of the DeLong Dock with no collaboration with the City; and

WHEREAS, ARRC has increased rates to commercial processors to a level the processors find unsustainable for their business operations; and

WHEREAS, several commercial fish processors have ceased operations within the City based upon ARRC's rates and the City has been unable to attract new commercial processors to establish operations within the City; and

WHEREAS, on April 6, 2016 a Quit Claim Deed was sent to ARRC by the U.S. Army Corps of Engineers to transfer ownership of the DeLong Dock; and

WHEREAS, on April 21, 2016 additional documentation pertaining to the transfer of ownership of the DeLong Dock was sent to ARRC, upon their request, by the U.S. Army Corps of Engineers; and

WHEREAS, on April 26, 2016 and May 4, 2016 the U.S. Army Corps of Engineers requested status updates from ARRC, concerning acceptance of the transfer of ownership of the DeLong Dock, with no response to either request; and

WHEREAS, the aforementioned factors combine to show that ARRC has not acted in good faith, has not collaborated with the City, has not worked to benefit economic development in the region, but has actually used their exclusive control of the DeLong Dock to inflict serious damage on the economic viability of the City of Whittier and the entire Prince William Sound Region; and

WHEREAS, the lack of response to the recent Quit Claim Deed by ARRC, AARC's failure to transfer the Dock to the City over the last sixteen years or to share in profits generated form the Dock with the City, and ARRC's implementation of rate increases and other management policies that result in the loss of economic development within the City all demonstrate the need for federal and/or state intervention to protect the intent of the United States and State of Alaska legislator and the needs of the City and the community at large; and

WHEREAS, the unilateral price setting by ARRC for fish coming across the DeLong Dock shows a lack of concern for the economic wellbeing of the City of Whittier and the Prince William Sound region; and

WHEREAS, ARRC has had many recent opportunities to collaborate with the City to benefit the economic wellbeing of the City and the region, but has refused to do so.

NOW, THEREFORE, BE IT RESOLVED BY THE WHITTIER CITY COUNCIL, that:

Based on the aforementioned facts the City hereby determines that ARRC has violated the terms of the 1999 MOU, and has blatantly ignored the direction given by the Alaska Legislature via HB 320 concerning timely oversight of the Dock transfer, and has thereby caused an extreme economic hardship on the City and the Prince William Sound region. The City hereby declares a state of economic hardship caused by ARRC and respectfully requests the following:

- 1. That the U.S. Army Corps of Engineers expedite the land transfer process by all means available;
- 2. That the Alaska Governor and Legislature require ARRC to complete the land transfer process no later than January 1, 2017;
- 3. If ARRC does not complete the land transfer process by January 1, 2017 the Alaska Governor and/or Legislature take action to transfer all management, operation and control of the DeLong Dock to the City of Whittier.

Safe Boating Proclamation

Recreational boating is an enjoyable family activity, and we are fortunate to have ample resources to make that activity available to residents and visitors. While a wonderful source of recreation, boating can be a risky activity for those who are not well prepared. Not knowing the nautical "Rules of the Road", using alcohol or drugs, not wearing life jackets while boating are all examples of lack of proper judgment. The one single act that can most greatly reduce the loss of human life in boating accidents is simply wearing a properly fitting life jacket. This one simple act can significantly reduce the loss of life by drowning.

Boating skills and knowledge are important to improving boating safety and keeping the sport an enjoyable family activity. This is why we must promote and support boating safety training, and spread the message about boating safety not only during National Safe Boating Week, but throughout the entire year.

WHEREAS, fatalities due to boating accidents can usually be prevented by boater education and training; and

WHEREAS, boating accident fatalities are declining annually due to increase boater education and training; and

WHEREAS, boaters who lose their lives through drowning are likely to be not wearing a proper filling life jacket of appropriate type; and

WHEREAS, life jackets of modern design are more comfortable, more attractive, and more wearable than those of the past, and should be an enjoyable part of the boating experience.

THEREFORE, I, Daniel Blair, Mayor of the City of Whittier, do hereby support the goals of National Safe Boating Week and proclaim May 21-27, 2016 as Whittier Safe Boating Week and support the year-round efforts of boating safety professionals to promote safe boating.

IN WITNESS THEREOF, I urge all recreational boaters to wear a life jacket and practice safe boating habits.
